

## HELP US ALL STAY SAFE

DO	DON'T
Tell school immediately if your child or a member of your household tests positive for Coronavirus, contact the NHS and comply with track and trace.	Send your child into school if they have symptoms.
Arrive on time for dropping off your child	Wait around after or bring other family members with you
Clean your child's uniform and PE kit regularly	Allow your child to bring in items from home they don't need
Remind your children the importance of handwashing and 'catching sneezes and coughs.	Come into the school building unless you really need to— could you phone or email?
